

To all students

Director, Headquarters for Disaster Countermeasures
Executive Vice President Maeda Masafumi

Confirming personal safety in the Tohoku Earthquake

The University of Tokyo is working to confirm the safety of all University students, and is currently assessing future responses to the situation. The University has instructed the head of each department to compile information on the safety of all their students. We request all students to contact their department and follow any instructions given.

For further information please contact:
