

UTokyo Amgen Scholars Program 2025

Host Laboratory and Research Topic

Name of Faculty Member (Title)	MOI MENG LING (Professor)
Name of Graduate School/ Faculty/ Institute	Graduate School of Medicine
Research Topic & Description	Development of next-generation vaccines and diagnostics for neglected tropical viral diseases through basic virology and immunology research
Academic Requirements & Expectations	1) Field(s) of Study
	(1) Microbiology (2) Virology (3) Molecular Biology *(1)-(3) demonstrate an interest in learning in these fields
	2) Knowledge/ Skill/ Proficiency
	(1) Basic knowledge and interest in pursuing research on microbiology, immunology, and vaccinology. (2) Proficiency in English (writing and presentation skills) (3) Good communication skills and willing to work as a team member
	3) Academic Background and Research Experience
	(1) Some basic laboratory skills including pipetting, reagent preparation (2) Willing to work in a microbiology lab (BSL2)
Lab Website & Relevant Information	https://www.development.m.u-tokyo.ac.jp/en/
Campus / Location	Hongo / Yayoi
Area of Research	Microbiology Immunology Molecular Medicine
