Pre-Test Date and Time	Year _____ Month _____ Day _____ From ___: ___ to ___: ___
Purpose of Use	

Terms of Wired LAN Usage

1. The application form must be submitted to the Administration Office of the Ito International Research Center at least two weeks prior to the date of use.

2. The Administration Office will review the application and issue the permission for use. Depending on the content, permission may not be granted.

3. After receiving permission, a pre-operation test must be conducted. Please note that staff from the Center will not be present during such tests.

4. General outlets have limited communication capabilities due to security measures. (This does not apply to distribution outlets.)

5. Reference Line Speed:
   Upload: 250Mbps – 280Mbps
   Download: 300Mbps – 330Mbps
   (Speed is not guaranteed and may vary depending on conditions.)
